Health & Safety

“Workplace injuries are a real cost to the industry, through the cost of time off work, finding replacement workers, and of course the harm to the workers themselves.”

Our Vision about health & safety.

We, M & G group, provide a framework to support sustainability improvement.

In our company, we admit employee and train for maximum efficiency with maximum safety. We believe in SAFETY first.

To do this, a safer industry group works to:

- Identify common processes, work practices and use equipment which can cause less injuries.
- Develop day by day work relevant action plans and initiatives to reduce injuries.
- Encourage employee wide ownership of safety issues
- Share knowledge and experience in developing safety management initiatives.
- Review the effectiveness of the interventions to ensure that long-term solutions are found.
- Provide and maintain a safe working environment.

Quality Policy

1. Maintain cordial relationship with customers.
2. Understand the value of the customer and give due the respect.
3. Enhance customer satisfaction by the way of timely delivery and 100% safety to their goods.
4. Be honest to the business and customers.
5. Maintaining the ethic required for any business and particularly in this field.
6. Improve and upgrade operational methods to give the customer most efficient and effective service forgetting not economy.
7. Aim to achieve market leadership by hard work and just means. Keep the employees adequately empowered and motivated to work as a team to achieve our goals.
8. Create an environment which supports attainment of excellence. To maintain constant growth in the business turnover, thereby obtain cost reduction, both for the customer and the company.
9. To ensure proper maintenance of vehicles and have accident/breakdown free operations.
10. To see to it that complaints are kept at the lowest possible level and to ensure that the complaint ratio is constantly reducing.

The Group

M & G NETWORK, LOGISTICS AND SERVICES® is one of the leading ground goods service providers and fleet owners of the country. M & G NETWORK, LOGISTICS AND SERVICES, under the ever inspiring leadership and grooming of its founder TWO younger BROTHER **MR MAHESH JOTANGIYA** and **MR GAURAV JOTANGIYA** started it's operation way back in the year 2003 from a small town, RAJULA (GUJARAT). and now **MR KALPESH JOTANGIYA** is also look our expand the business, Subsequently by converting the trust of our customers into safety, reliability and speed we have nurtured into a trusted name in transport sector. Today we are a multi location and multifaceted company backed by qualified professional hands with expertise in their fields and successfully providing total integrated logistics solutions, ground transport services and other value added services to India's big & organized industrial houses and our at most important small & medium scale enterprises in the states of Gujarat, Always.... One Step Ahead to provide highly efficient & Reliable Services in Logistics.

As per the need of time and demand of our customers, we have redefined the science of movement by

integrating the positive of both conventional transportation and modern logistic systems. **M & G NETWORK, LOGISTICS and SERVICES** group provides various services under one roof, having a huge Infrastructure of, Truck Fleets, well trained work force and most importantly the edge in Information Technology.

We are a company providing logistical solutions designed to meet the diverse needs of today's demanding business environment. M & G prides itself on each partnership we have established between the clients we serve. We observe and listen, understanding business needs before recommending a logistics solution that will ultimately fulfill the client's objective.

We have resources to ensure quality transport solution every time. We have made a strong repute for impeccable freight logistics services in Gujarat, which is characterized by Timeliness, Flexibility, Swiftness, Safety and Reliability.

Infrastructure & Capability

Work force

The whole work force is divided into various departments, such as Administration, Operations, Accounts, IT and most important customer care department. Each department has a head who is directly in touch with the work force under him.

Information Technology

All the major branches & agencies are computerized and are linked to the centralized Head office server, which is updated regularly. Here we have our customer care department which looks into the day to day operational coordination, customer complaints and

queries. We are successfully catering to the needs of a vast variety of clients.

Truck Fleet

- 40 feet high capacity containers max payload of 35 mt
- 20 feet high capacity containers max payload of 28 mt
- 18 feet high capacity bulker max payload of 22 mt
- 20 feet body type with max payload 22 mt
- We have started installing GPS and soon our entire fleet will be installed with the same. This will enable us to track your goods and make sure timely deliveries
